SKILLS

LANGUAGES

TypeScript · JavaScript · PHP 8 · Python · SQL · PL/SQL · C

WEB & APIS

Next.js · Flask · HTML · CSS · REST · OAuth2

DATA

SQLite · Oracle APEX · SQLAlchemy

AI, TESTING & TOOLS

Ollama · OpenAI API · PHPUnit · Cypress · Gherkin · Git · Vercel

LANGUAGES

PORTUGUESE: Native

ENGLISH: Intermediate reading

PROFILE

Full-stack developer with a B.Sc. in Software Engineering from the Catholic University of Brasília (UCB). I build web applications end to end, from the database to the interface, with special care for API integrations, error handling and tests. My projects include generative AI, Banco do Brasil's Billing API and Oracle APEX.

PROJECTS

Bank slip manager — Banco do Brasil Billing API

technical test · 2026

PHP 8 · SQLite · OAuth2 · PHPUnit

- Integration with Banco do Brasil's Billing API v2 (sandbox): issuing, checking, filtered listing and cancelling bank slips.
- Cached OAuth2 token, parsing of BB errors (rejection vs. temporary failure) and PHPUnit test coverage.

PDF Insight AI

2026

Next.js · TypeScript · Ollama / OpenAI-compatible API · Vercel

- PDF upload, server-side text extraction and AI analysis with summary, key points, insights and key quotes.
- Configurable AI provider (local Ollama or external API) and chunking of long PDFs to avoid timeouts. Deployed on Vercel.

Product catalog — Oracle APEX

2025

Oracle APEX · SQL · PL/SQL

- Product and category management, with price validation enforced by a PL/SQL trigger.

E2E test automation

2025

Cypress · Gherkin · JavaScript

- BDD scenarios in Gherkin automated with Cypress against the SauceDemo store, running headed or headless.

Task Manager

2025

Python · Flask · SQLAlchemy · SQLite

- Web app with user sign-up and login and full task CRUD.

Interactive portfolio

2026

HTML · CSS 3D · JavaScript

- A CSS 3D laptop that opens as you scroll, in Portuguese and English, with no frameworks.

EDUCATION

B.Sc. in Software Engineering
Catholic University of Brasília (UCB) · completed

CS50 — Introduction to Computer Science
Harvard University (online)

EXPERIENCE

Young Apprentice — Front Desk

Eye clinic

Patient service and guidance, supporting the team and the clinic's routine: responsibility, attention to detail and communication with the public.
